PROFESSIONAL SUMMARY

Windchill PLM professional with hands-on experience in customization, access control analysis, and enterprise tool development within engineering systems. Skilled in Java, SQL, and XML, with practical exposure to lifecycle management, workflows, and data-driven reporting. Developed internal tools for ACL analysis and system logging, improving visibility, debugging, and operational efficiency. Strong problem-solving abilities with a keen interest in engineering-driven digital transformation and enterprise systems.

EXPERIENCE

Engineering Trainee – IT PLM Core (Implementation) Nov 2025 – Present
ZF Friedrichshafen AG

- Customized Windchill PLM for product lifecycle operations including object creation, versioning, iteration, and lifecycle state transitions
- Configured lifecycle templates, workflows, roles, and OIRs to align with business processes
- Developed a custom ACL Comparison Tool (frontend + backend) to analyze and validate access differences across users, roles, and domains
- Built a Business Logging & Monitoring Tool to track system operations, execution flows, and errors for debugging and audit purposes
- Implemented XML parsing and configuration utilities for Windchill customization (lifecycle, policies, system configs)
- Developed custom reports using Query Builder (QML) and optimized SQL queries for PLM data analysis
- Designed and implemented full-stack solutions within Windchill using Java, SQL, and UI customization
- Performed access analysis and troubleshooting across ACLs, roles, and policy configurations.
- Supported engineering workflows by aligning PLM configurations with product design and lifecycle requirements
- Worked with engineering data and structures (BOMs, documents, lifecycle states) to ensure consistency and traceability

SKILLS

- **PLM & Tools:** PTC Windchill, Lifecycle & Workflow, ACL, Query Builder (QML)
- **Programming:** Java, SQL, XML, PowerShell
- **Concepts:** PLM Customization, Access Control, Data Analysis, System Debugging
- **Other:** Azure AI Fundamentals, Electrical Systems Fundamentals, Power Distribution Basics, Embedded Systems and VLSI (Academic Exposure), Simulation using MATLAB & Simulink.

EDUCATION

- Institute of Technical Education and Research- ITER** 2020-2024
Bachelor of Technology, Electrical and Electronics Engineering
C.G.P.A - 8.8 / 88%
- L.R DAV Public School, Cuttack, Odisha** 2007-2020
Secondary & Senior Secondary Education, Central Board of Secondary Education
Completed 10th with 93.8% and 12th with 87.8%.

**PROJECT
EXPERIENCE &
INTERNSHIPS**

SOCIETY OF AUTOMOTIVE ENGINEERS -ITER

November 2021 - May 2023

Department Head

- Worked for the **MAHINDRA E-BAJA** 2021-22 project and successfully passed two phases.
- Mostly worked on report-making. Simulation and Execution of our project physically.
- Achieved final objectives by preparing project estimation budgets, scheduling expenditures, analyzing self-manufacturing cost cuts, and initiating corrective actions.

HIGH RADIUS CORPORATION

May 2023-June 2023

Consulting Intern

- Worked for the **Highway to High-Radius** program and completed the internship successfully.
- Worked on preparing reports, estimation, presentation, and problem-solving.

CENTRAL TOOL ROOM AND CENTRE

Nov 2024-Feb 2025

VLSI Intern/Trainee

- Worked on Layout Design, VHDL, Verilog, Configuring PLDS, FPGA, Microcontroller

TRAININGS

Core Java, Model-Based Design (**KPIT NOVA**), Electrical Power Distribution Engineering(**L&T**), XML (**LinkedIn**), PowerShell (**NASBA-Certified**), AZURE-AI (**Microsoft-Certified**), PTC-Windchill (**ZF**), SQL (**NASBA-Certified**)

INTERNSHIPS

Business Consultancy (**HIGH RADIUS CORPORATION**), Embedded with C programming (**PANTECH AI**), Very Large-Scale Integration-VLSI (**CTTC-BBSR**)

PUBLICATIONS

1. Oscillatory Transient Mitigation and Voltage Stability Enhancement of Renewables and ESS-integrated MG through DVR Based on Snake Optimization Technique (**Springer Book Chapter** “Control Applications in Modern-Power Systems”) (**NIT JAMSHEDPUR**)- Nominated for “**The Best Presenter**”.
- 2.Systematic Representation, Design, Analysis, and Construction of an R-C Plane. (**NIT-ROURKELA INNOVISION & SOA-U Symposium**)
- 3.Over and Under Voltage Protection using op-amps and Arduino. (**SOA-U Proxima**)

LANGUAGES

English, Hindi, Odia.
